MEMORANDUM

TO: Parents, Teachers, and Employees

FROM: Monica Goldson
Chief Operating Officer

RE: Availability of Asbestos Management Plan

In October 1986, the United States Congress enacted the Asbestos Hazard Emergency Response Act (AHERA). Under this law, comprehensive regulations were developed to address asbestos problems in public and private elementary and secondary schools. These regulations require school system staff to inspect for asbestos containing materials. The assigned responsibilities to our school system are outlined in our Asbestos Management Plan.

The Asbestos Management Plans are available to the public for review. School specific plans are located in the administrative office at each school, as well as in the Environmental Office located at 13306 Old Marlboro Pike Upper Marlboro, MD 20772. You can review the plan at each school by making an appointment during normal business hours without cost or restriction. If you choose to view the plan at the Environmental Office, please call 301-952-0831 and an appointment will be arranged within five business days to review the plan with an environmental inspector.

If you have any questions in regards to reviewing our Asbestos Management Plan, please contact the Environmental Office.
