DISABILITY ISSUES ADVISORY BOARD

Policy Statement

The Board of Education of Prince George’s County believes that equal opportunity and access to Prince George’s County Public Schools for students, employees, parents, and the public, regardless of ability, is critical to its mission. The Americans with Disabilities Act (ADA) and the Maryland Human Rights Act prohibit discrimination against individuals with disabilities in employment and access to public facilities and these laws, along with federal and state regulations, ensure equal opportunity and access for our students with disabilities. These laws and regulations require that school districts operate programs that are accessible to and usable by individuals with disabilities. They also protect all individuals with disabilities who participate in school programs and activities.

The Board of Education believes that in addition to adhering to the strict requirements of the law, when feasible, the Prince George’s County Public Schools should ensure that all Prince George’s County Public School System facilities and personnel present a welcoming and supportive atmosphere to persons with disabilities.
