Procedure No.

-
- I. **PURPOSE:** To provide information to administrators and teachers for implementing the Board Policy of student trips.

 - II. **POLICY:**
 - A. The Board of Education recognizes field trips as an integral part of the instructional program. The purpose of a field trip is to provide educational experiences, related to a student's study, which are beyond the immediate school environment. In addition, field experiences offer extended opportunities for students to practice self-control, self-discipline, consideration for other people, and learning to make positive personal adjustments in a variety of new group situations. The Board of Education recognizes its responsibility to meet the individual needs of students and for this reason, out-of-class experiences should be considered for individuals as well as for groups of students (Board Policy 6153).

 - B. Field trips shall only occur when national and security conditions warrant such travel.

 - C. In addition, as the Board of Education recognizes that musical groups may, from time to time, be required to perform at a location other than the musical group's home school, all trips taken from the home school shall be deemed to be Student Trips, and in addition to required compliance with Administrative Procedure 6124.1, such trips of musical groups shall be governed by this Administrative Procedure 6153.

 - D. Exceptions: The above policy is not applicable to any of the following activities:
 1. Participation in a continuing program or continuing activity which requires the student to regularly be absent for a specified portion of certain school days for the minimum of one grading period, or longer, and for which written parental permission had been obtained prior to the commencement of such continuing program or continuing activity. (Example: work-study programs, independent study programs, concurrent study programs, vocational-technical training programs, peer and/or cross-age tutorial programs, TAG programs, Student Government participation.)
 2. Walk-a-thons, bike-a-thons or similar programs where the student's participation is affiliated with the public school and where the scheduled activity does not interfere with the regularly scheduled school day. The sole purpose of the activity must be the raising of

 5. Board of Education authorized trips, irrespective of length to the Schmidt Outdoor Education Center, Ferguson Farm, Camp Pecometh, Howard B. Owens Science Center, or the like, if prior written parental approval has been obtained.
 6. Off-campus Commencement Exercises, off-campus proms, participation in Board of Education sponsored orchestras, choirs, or chorus, as well as participation in Board of Education sponsored Music Festivals, which are scheduled in the State of Maryland.
 7. Interscholastic Athletic Teams; however, athletic trips must meet the following requirements (must be completed for trips requiring an overnight stay and/or will require travel out of the Washington Metropolitan Area):
 - a. The trip must be listed on the approved athletic schedule per Maryland Public Secondary Schools Athletic Association (MPSSAA). MPSSAA does not allow events to be added after the first athletic competition has been played.
 - b. A non-local travel form for the head coach must be submitted along with the team's complete itinerary.
 - c. Teams must travel via approved mode of transportation as outlined in Section – VIII Transportation (page 9) of this Administrative Procedure or transported by their parent/legal guardian.
 - d. Principal must have approved the trip by signing all appropriate documents.
 - e. Trips must be approved by the Director of Interscholastic Athletics or his/her designee.

 - e. Required no collection of funds in the school from the students anticipated to participate in same.

III. **BACKGROUND:** There is a need to have uniform procedures for schools to follow in arranging student trips to insure their safety and welfare and to insure the education value of these experiences. These procedures apply to all class and student organization activities away from the school building.

IV. **DEFINITIONS:**

A. Student Trips: There are two kinds of student trips:

1. Field Trip – Any activity or excursion away from the school building taken by groups of students as a class or part of a class or as a student organization, under sponsorship of the school and under the guidance and supervision of professional staff members and written parental approval has been obtained.
2. International Exchange Trip - A trip taken as part of a program of study which has, as one of its scheduled components, a regular annual or biennial exchange of students between a Prince George's County Public School and a similar educational institution in another country, and which exchange, as part of such program of study, shall have previously been approved by the appropriate Area Assistant Superintendent and the Superintendent or the Superintendent's designee.

B. Sponsoring Teacher: That certificated professional member of the school Staff who is directly responsible for the planning of a trip.

1. The Head Coach or leader of any athletic team or group, the Director of any band, choir or other musical group shall, for purposes of these rules and procedures be deemed to be a "sponsoring teacher."
 2. No field trip, as above defined, shall be scheduled to have more than one sponsoring teacher.
 3. No International Exchange Trips, as above defined, shall be scheduled without there being such number of sponsoring teacher, or teachers, as the Coordinator of the program arranging such a trip and the Chief Academic Officer deems necessary.
- C. Chaperone: That responsible adult, member of the professional staff or a citizen in the school community who agrees to participate with the sponsoring teacher in any student trip. All chaperones must stay on site until all students have been picked up.

V. CHAPERONE / STUDENT RATIO:

A. Field Trip:

1. The minimum ratio of chaperone to student cannot be less than one chaperone (sponsoring teacher included) for every six (6) kindergarten students, one chaperone for every fifteen (15) students for elementary schools (grades 1-6), one chaperone for every twenty (20) students for middle schools, and one chaperone for every twenty-five (25) students in high schools. Except in the case of field trips involving musical groups or individual classes having an enrollment in excess of thirty (30) students, for which specific provision is made in section 2 hereafter, at least one-half of the required number of chaperones must be employed by the Board of Education of Prince George's County as certificated professional personnel and excepting the case of elementary schools, male and female chaperone teachers must be of a ratio reasonably consistent with the ratio of student participants anticipated.
2. In the case of musical groups, or individual classes having an enrollment in excess of thirty (30) students, the Principal may waive, in writing, the requirement that at least one-half of the required number of chaperones must be employed by the Board of Education of Prince George's County as certificated professional personnel as chaperones in attendance on any field trips, provided that the chaperone/student ratio as set forth in paragraph A hereabove will still be maintained.

3. Trips for interscholastic athletics will be supervised by the head coach and his/her assistants. Additional chaperones may be added, but are not required.
- B. International Exchange Trip: There shall be such number of chaperones as the Coordinator of the program arranging for such trip and the appropriate Superintendent or the Superintendent's designee deem necessary, depending upon the specific type of exchange program involved, such as where students will live in the homes of various host families in the country where the international exchange is to occur, and the maturity level of the students participating, as long as there is at least one sponsoring teacher traveling with the entire group of students.

VI. STUDENT TRIP LIMITATIONS:

- A. Field Trip: Except in the case of elementary schools where field trips may be scheduled with such frequency as is approved by the Principal, no sponsoring teacher may sponsor more than one field trip per semester, unless the express purpose of such trip is to permit the performance of the assumption of civic services by the student group on whose behalf said trip was planned. The Principal must determine that the frequency of any trips not have a deleterious effect upon the otherwise scheduled educational process of either the student participants or those non-participating students whose regularly assigned teachers are scheduled to be in attendance on said trip.
 1. Principals considering a student trip to an area that has experienced some form of civil disturbance must obtain the permission of the Superintendent or the Superintendent's designee.

- C. No student trip may be planned for or permitted to proceed to an area where either the sponsoring teacher or the Principal has knowledge of or reason to believe that the environment of the locale to which such student trip is to proceed is or had, within a ninety (90) day period preceding the

contemplated date of said student trip, experienced civil strife or similar type of disturbance that may create hazards to the participants. Principals considering a student trip to an area that has experienced some form of civil strife or similar type of disturbance must obtain the permission of the Superintendent or the Superintendent's designee, and in the case of an International Exchange Trip, the Coordinator of the program arranging for same.

- D. Participation in any student trip may not be mandated by a sponsoring teacher and no student shall be penalized for his/her failure to participate in said student trips or at scheduled performances as a condition precedent to team performances, group membership, or enrollment in the program and the student's absence is not excused according to the Board of Education Policy on excused absences.
1. The sponsoring teacher shall have the primary responsibility of arranging suitable programs for such students who do not participate in the student trip but whose class or classes would be canceled by virtue of the sponsoring teacher and/or chaperone being in attendance on said student trip.
 2. Any student not participating on a student trip is still expected to attend school during such time as the student trip is in progress unless said student has an excused absence in accordance with Board of Education Policy.
- E. Except for participation in an athletic event previously scheduled or approved by the Director of Interscholastic Athletics, no trip may be taken as an extension of any regular or extracurricular activity where said activity requires participation by the student in a sport or experience known or reasonably known to the Principal to create the potential for injuries to persons not especially trained therefore nor skilled therein.
- F. No student trip may be scheduled without the sponsoring teacher and the Principal, in the case of a Field Trip, or the Coordinator of the program arranging such a trip and the Superintendent or the Superintendent's designee, in the case of an International Exchange Trip, first satisfying themselves that the participating students will not engage in any activities which are illegal at the destination of their travels, or along the route of same.
- G. The cost of the trip per student may not exceed the sum of money which the sponsoring teacher, in review with the Principal, in the case of a Field Trip, or the Coordinator of the program arranging such a trip and the

VII. PROCEDURES:

- A. No sponsoring teacher may plan any trip without first having obtained written approval from his/her principal, in the case of a Field Trip, and written approval from the Superintendent or the Superintendent's designee, in the case of an International Exchange Trip.
- B. Field Trip: The sponsoring teacher shall furnish the Principal, no later than seven (7) calendar days prior to the date of departure of any trip, with the names of the chaperones scheduled to participate in said trip.
 - 1. The sponsoring teacher shall furnish the Principal with a list of scheduled student participants no later than seven (7) calendar days prior to the date of departure upon the presentation of which list the trip shall be deemed to be "closed" to any other students for whom a "standby" list may, however, be established, from which standby list participants may be chosen in the place and stead of other students giving notification of cancellation within said seven (7) calendar day period.
 - 2. Under no circumstances may a sponsoring teacher accept a deposit of funds from more participants in a trip than said sponsoring teacher has space allocations on the carrier chosen to transport the participants on the trip.
 - 3. All space allocations must be confirmed, in writing, to the sponsoring teacher at least five (5) calendar days prior to the scheduled departure date of said trip.
 - 4. The price of any trip shall be restricted to the actual costs of said field trip. Any student having previously paid for the costs of his or her participation on said field trip and unable to proceed on same, irrespective of cause, shall not be entitled to a refund of monies previously paid unless a student "standby" is prepared to go in his or her place and stead, unless the sponsoring teacher determines that the issuance of a refund will not cause an increased expense to the remaining student participants. No student standby may be

- permitted to proceed on a field trip unless such student pays the per-pupil allocated cost of said trip.

 - a. The trip's principle function can be proven to be a supplement or an extension of a specific course of study taught by the sponsoring teacher, and in which the potential student participants are enrolled.
 - b. The trip is undertaken for purposes of permitting the participation by students in a tournament, exhibition, or any other type of setting where the performance by such group of students is the principle purpose of the trip.
 - c. The trip is undertaken to an installation which such installation has, as part of its regular program, made provisions for the inspection of its facilities by public school students and their participation in specific educational programs provided by such institution as part of its regularly scheduled practices.
 - d.  - e. Both the sponsoring teacher and the Principal shall have in their possession a roster of all field trip participants. The roster must include the home telephone numbers of parents.
 - f. The sponsoring teacher shall have in his/her possession the Emergency Medical Treatment Authorization Form.
